# Health Report

December 29, 1966

Mrs. Edith Burbank, Town Clerk

To the Citizens of the Town of Dalton:

During 1966, 101 visits were made in the community, and they are classified as follows:

Adminis. & Promotion	3	School	12
Antepartum	1	Sight Conservation	2
Crippled Children's Serv.	12	Social Problems	5
Health Supervision	47	Tuberculosis	4
Mental Health	15		

At the Well Child Conferences, 23 physical exams were given, and 37 immunizations.

Fifty-five individuals participated in the Heaf testing program for tuberculosis detection.

Five children have attended the Crippled Children's Clinics, and two children have attended the Pediatric Cardiology Clinics.

There is a crucial need at this time, for communities to develop an over-all plan that will insure continuity of nursing service from the hospital to the home, or from the home to the hospital.

Nursing is one of the essential services in any community health plan or program

The citizens in any community or area, have a direct responsibility, therefore, to make sure that needed continued nursing care is provided for men, women and children as they move to any place where care may be given.

Each community needs to develop or improve a community centered or area centered plan, which will enable its citizens to have better and more complete nursing care available to them and their families when needed.

How many of your citizens who should be receiving benefits from the Medicare Program are unable to do so because you do not have a community centered or area centered plan to meet their needs?

Now, is the time for action by all citizens of the community.

It is always a pleasure to serve the Citizens of Dalton, and I extend my gratitude to them for their cooperation during the past year.

Respectfully submitted,  
ELEANOR D. KENNEY, R. N.  
Public Health Nurse, District 2  
N. H. State Department of Health
